BIFEST – Bari International Film Festival

Istanbul/Munich, April 3, 2015

Dear Felice,

You have successfully concluded another excellent festival in Bari, its 2015 edition. Thanks to your generous assistance and support we could again attend and could, in this particular year, even become a part of the event, dedicated to the 90th anniversary of FIPRESCI, the International Federation of Film Critics.

We consider ourselves very fortunate to have you as our host. To say that we were deeply touched by your sincere devotion to FIPRESCI and the celebration of the 90th anniversary of our Federation does not sufficiently express our gratitude. Your suggestions and ideas, combined with your extraordinary ability to organizing and curating, have lead us to a success which has been acclaimed by everyone who has been present in Bari, as well as by many colleagues and friends in the world of cinema. This recognition of our joint efforts has made us inexplicably happy.

We truly hope that FIPRESCI can be encouraging, motivating and supportive for your work.

Expecting to continue our – in the meantime traditional and proven – collaboration, we look also forward to the opportunity to return all your wonderful favors with an equal efficiency.

Cordial greetings
